

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I especially like the fact that I don't have to listen to a bunch of commercials and that the radio is always clear and without static. Satellite radio provides variety and quality that are not available elsewhere. I PAY for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I pay for and wish to hear.
